

Kit 3 Activity 3

Learners will respond in writing to each of the following questions. Learners should be encouraged to use Word Processing programmes throughout the writing process. The programs facilitate the process and are especially helpful with the composing, revising, and editing stages because they do not require students to rewrite their work. They help students format their work and produce copies which are clearly legible and professional looking.

If you have unknown terms please use Google Translate.

- How successful do you think your group was at **implementing** its **action plan**?
- What **additional** action do you **believe** should be taken to continue to address this problem?
- What **roadblocks** kept you from **achieving** everything that you wanted to with the action plan that was **to be implemented**?
- How did the community **benefit from** your group's **attempt** to **implement** its action plan and **address the problem**?
- How did you feel about your role in **the implementation** of the action plan?
- How did you benefit, directly or indirectly, from the **implementation** of the action plan?
- Based on this experience and what you learned from **this series** of activities, do you believe you will continue to be an active citizen in social entrepreneurship? Why?
- Based on your experience with this project, do you **think** that social entrepreneurship will change the world dramatically?
