

Activity 3 (computer-based, learning by doing, group work; reading, listening and speaking): *Products, services and activities*

- case Study: PINASTER:
http://www.set2clil.tryavna.eu/casestudy/PINASTER_5.pdf

Learning objective/s: at the end of the activity learners will be able to arrange the activities, services and products of a Social Business in an Organisational Plan assigning positions of responsibility to the management team.

Approximate time: 45 min + **45 min of independent work**

Procedure/description: a follow-up activity of 1 learning-by-doing task, intended for group work. Learners discuss the organizational plan of the Cooperativa Pinaster and supported by trainers design a specific questionnaire to examine the work environment of the social enterprise - activities, services and products, staff positions, etc. Finally, they analyze the results of the surveys and share with the class followed by debriefing and peer evaluation.
