

Module 4, Activity 4

Work in pairs or small groups and visit the ESF web site, particularly the project examples page:
<http://ec.europa.eu/esf/main.jsp?catId=46&langId=en>

In the themes search field find the 4 main activities of the ESF. Find out the one which is most applicable to social enterprises and select it. Then choose a country and read the short descriptions of the projects funded. Read the figures aloud (budget, participants, etc.).

Each pair will present a chosen project to class by answering questions such as:

- *What's the name of the project?*
- *What type of support did the project provide?*
- *What is the ESF contribution? How much is the grant?*
- *How many people participated?*
- *Do you know about any similar projects in your community?*

Discussion: Which project ideas would fit best to your own social enterprise?
